40 Hour HAZWOPER Training (29 CFR 1910.120)

In compliance with the Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1910.120, the 40-hour training is to certify individuals who have a role in Hazardous Waste Operations and Emergency Response (HAZWOPER) operations. This training course offers 40 hours of on-line instruction. The course is a combination of: web-based instruction interactive exercises, audio narration of text, self-grading quizzes, and a final exam. Our OSHA Study Timer is also used to comply with the 40 Hour HAZWOPER training requirement. A student cannot take the final exam until this time requirement is met. Once a student successfully completes the training, an e-certificate will be issued and the original certificates (8x10 and wallet card size) will be mailed. The 40 Hour HAZWOPER Course is taken online. As with any training (classroom or online) the employer is required by regulations to train the employee(s) on performance based standards for equipment.

This course features our exclusive **OSHA accepted** HAZWOPER Hands-on Simulator and is divided into 3 series of modules.

While this training course is very comprehensive, additional site-specific training must be taken for certain hazardous materials/ environments that may be encountered at different sites. This is an employer obligation. As with any 40 Hour HAZWOPER training (classroom or online), a student must complete 3 days of site specific training at their first HAZWOPER site after successful completion of the course. This requirement is for new employees.

Table of Contents

Series 1 Modules

- Module 1 - Overview of Pertinent Environmental Regulations
- Module 2 - Roles and Responsibilities Part 1
- Module 3 - Roles and Responsibilities Part 2
- Module 4 - HAZWOPER Site Control
- Module 5 - HAZWOPER Site Work Zones
- Module 6 - HAZWOPER Support Zones
- Module 7 - General Health and Safety Plans Guidelines
- Module 8 - General Health and Safety Plans Guidelines Continued
- Module 9 - Medical Surveillance Program Part 1
- Module 10 - Medical Surveillance Program Part 2
- Module 11 - Hazard Recognition Part 1
- Module 12 - Hazard Recognition Part 2
- Module 13 - Respiratory Protection Part 1
- Module 14 - Respiratory Protection Part 2
- Module 15 - Personnel Protective Equipment
- Module 16 - Personnel Decontamination Station
- Module 17 - Decontamination
- Module 18 - Decontamination During Medical Emergencies
- Module 19 - Handling Drums
- Module 20 - Other Containers and Incompatible Chemicals
- Module 21 - Placards and Labeling
- Module 22 - Excavations
- Module 23 - OSHA Soil Classification System
- Module 24 - Requirements for Protective Systems
- Module 25 - Shoring and Shielding Systems

Module 26 - Confined Space
Module 27 - Confined Space Definitions
Module 28 - Confined Spaces
Module 29 - Confined Space Pre-Entry Procedure Part 1
Module 30 - Confined Space Pre-Entry Procedure Part 2
Module 31 - Confined Space Protective Devices, Controls and Monitoring Part 1
Module 32 - Confined Space Protective Devices, Controls and Monitoring Part 2
Module 33 - HAZWOPER Confined Space Prevention Overview
Module 34 - Prevention Overview Continued
Module 35 - HAZWOPER Confined Space Hazards

Series 2 Modules

Modules 1-3 - Site Characterization
Modules 4-10 - Toxicology
Modules 11-16 - Hazard Recognition
Modules 17-24 - Chemical Awareness
Modules 25-27 - Radiological Hazards
Modules 28-31 - Respiratory Protection

Series 3 Modules

Modules 1-3 - PPE Face, Head, Foot and Hand
Modules 4-6 - Site Control Program
Modules 7-11 - Decontamination
Modules 12-14 - Medical Surveillance
Modules 15-19 - Air Monitoring
Modules 20-21 - Hazardous Materials Sampling

HAZWOPER 40-Hour Certification Exam
