Bloodborne Pathogens

29 CFR 1910.1030

Course Description

2017

The purpose of this training is to identify the appropriate kinds of facilities, discuss work practices for reducing exposures, and the handling and management of bloodborne pathogens agents.

Cost: \$50.00 per person

Group discounts available (3 or more people). Please email or call us at 1.888.877.7130 for a quote. Price match guarantee! Must be OSHA compliant and same quality course.

Course Features

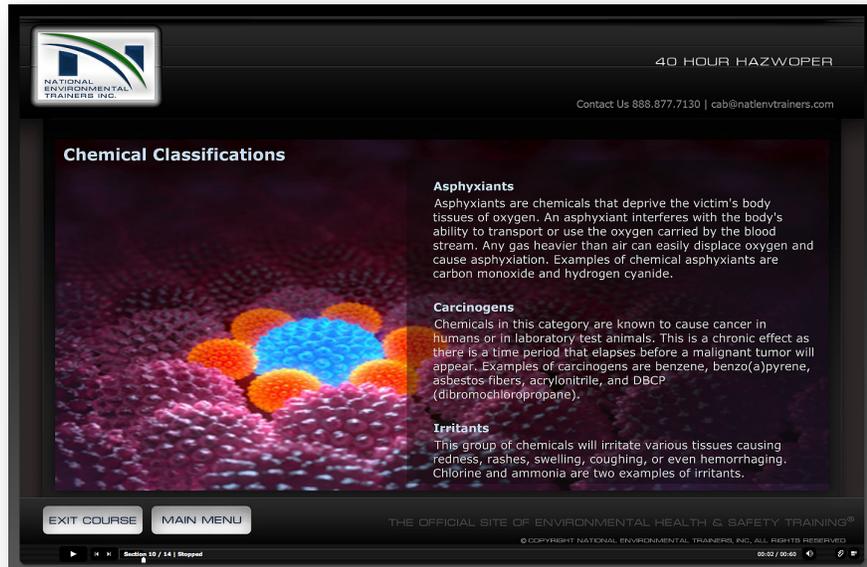

- Over 20 interactive flash animations
- Approximately 5 modules
- Award winning content - CEU's
- Self grading quizzes and final exam
- OSHA Study Timer (tracks your study time login and logout at your convenience)
- Certificate of Completion (3 certificates) e-cert, 8x10 and wallet card (instant download of e-certificate upon course completion)
- Course access for 1 year from the time of registration
- Free registration into the National Repository® (download your certificates at anytime in the future)

Course Description

In compliance with OSHA 29 CFR 1910.1030 regulations, this training is required for individuals who have a role with bloodborne pathogens.

This initial or annual refresher training must be taken for professionals engaged in working with items or materials that come in contact with blood.

The purpose of this training is to identify the appropriate kinds of facilities where bloodborne pathogens may be encountered, discuss work practices for reducing exposures, and the proper management of bloodborne pathogen agents.

Aesthetically pleasing course layout that is user friendly. Professional voice-overs, animations and high definition photographs. Self-grading quizzes and final exam.

Along the way there are self grading quizzes, interactive exercises, full length videos and a self grading final exam. The quizzes can be taken as many times as needed, and the final exam can be taken a maximum of 3 times. Once a person satisfactorily completes the course, an e-certificate is immediately sent to them via email. The original certificates (8x10 and wallet card size) arrive in the U.S. mail.

Course Overview & Course Objectives

In compliance with the Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1910.130, this initial or annual refresher training is for individuals dealing with bloodborne pathogens. The OSHA bloodborne pathogens regulation applies to employees such as housekeepers, laboratory technicians, nurses, physicians, morticians, custodians, laundry personnel, and other employees who may come in contact with blood or potentially infectious materials. The purpose of this training is to identify the appropriate kinds of facilities, discuss work practices for reducing exposures, and the handling and management of bloodborne pathogens agents.

Course Objectives:

- Define bloodborne pathogens.
- Describe various modes of transmission of bloodborne pathogens.
- Explain how to use personal protective equipment to prevent transmission.
- Describe bloodborne pathogen emergency response.
- Describe vaccinations for those who work with bloodborne pathogens.
- Describe infectious waste and warning labels associated with it.
- Describe guidelines for collection and storage of infectious waste and sharps.
- Take the bloodborne pathogens exam.

Support

Includes 24/7 **U.S. Based** support. An experienced and highly qualified instructor is available to you throughout the training process. Our toll free hotline or email will allow access to some of the finest instructors in the U.S.

Duration

1 hour

Continuing Education Units (CEU's)

This course has been awarded .5 Industrial Hygiene CM Points by the American Board of Industrial Hygiene (ABIH) - approval number 13335. This course is also eligible for .08 Continuance of Certification (COC) points from the Board of Certified Safety Professionals (BCSP).

Prerequisites

None

Course Outline

A. Define bloodborne pathogens.

Introduction

What Are Bloodborne Pathogens?

Hepatitis B (HBV)

Human Immunodeficiency Virus (HIV)

B. Describe various modes of transmission of bloodborne pathogens.

Transmission by Body Fluids

Work Practices to Minimize Infection

Most Common Modes of Transmission

C. Explain how to use personal protective equipment to prevent transmission of bloodborne pathogens.

Universal Precautions

Personal Protective Equipment

PPE Procedure

Gloves

Goggles

Face (or Nose and Mouth)

Protection Gowns

Aprons

D. Describe bloodborne pathogen emergency response.

Being Prepared

Spill Cleanup

Decontamination and Disinfection

Disposal of Solid Infectious Materials

E. Describe vaccinations for those who work with bloodborne pathogens.

Introduction

HBV Vaccination

Hepatitis B Facts

F. Describe infectious waste and warning labels associated with it.

Warning Labels

What Is a Regulated Waste?

G. Describe guidelines for collection and storage of infectious waste and associated sharps.

Collection and Storage - General Guidelines

Collection and Storage of Sharps

Table of Contents

Module 1: What are Bloodborne Pathogens?

Module 2: Diseases

Module 3: OSHA Standard, Modes of Transmission, PPE and Hygiene Practices

Module 4: Vaccinations

Module 5: Collection and Storage Requirements, Recordkeeping and Spill Cleanup

Final Exam
