- Course access for 1 year from the time of registration
- Free registration into the National Repository® (download your certificates at anytime in the future)

Course Description

In compliance with OSHA 29 CFR 1926.62 regulations, Lead Awareness training is required for individuals who are required to work around lead or lead containing materials in a construction setting but who do not perform lead-based abatement work.

All personnel who are subject to lead exposure are required to take this training. This 2 hour course communicates information such as methods of recognizing lead, health effects associated with lead exposure, how to minimize exposure, warning signs and labels.

Aesthetically pleasing course layout that is user friendly. Professional voice-overs, animations and high definition photographs. Self-grading quizzes and final exam.

Along the way there are self grading quizzes, interactive exercises, full length videos and a self grading final exam. The quizzes can be taken as many times as needed, and the final exam can be taken a maximum of 3 times. Once a person satisfactorily completes the course, an e-certificate is immediately sent to them via email. The original certificates (8x10 and wallet card size) arrive in the U.S. mail.

Course Overview

In compliance with the Occupational Safety and Health Administration (OSHA) 29 CFR 1926.62 regulations, this awareness-level Initial or refresher course is designed for personnel who are required to work around lead or lead-containing materials but who do not perform lead-based paint abatement work. The regulation applies to any work where personnel may be exposed to lead or lead- containing materials during the course of their work duties.

While this training course is very comprehensive, we highly recommend that additional site-specific training be taken for certain hazardous materials that may be encountered at different sites.

Support

Includes 24/7 **U.S. Based** support. An experienced and highly qualified instructor is available to you throughout the training process. Our toll free hotline or email will allow access to some of the finest instructors in the U.S.

Duration

2 hours

Continuing Education Units (CEU's)
